11 responses

E-games activity

Making bracelets

traditional music

Traditional songs activity

e-games activity

Traditions.

Kahoot

Traditional instruments

About writers

I can't single out one in particular. All activities were equally good.

Presentations

What activity you didn't like? 11 responses

I liked all the activities

none

None

I liked them all.

I liked everything.

linoit

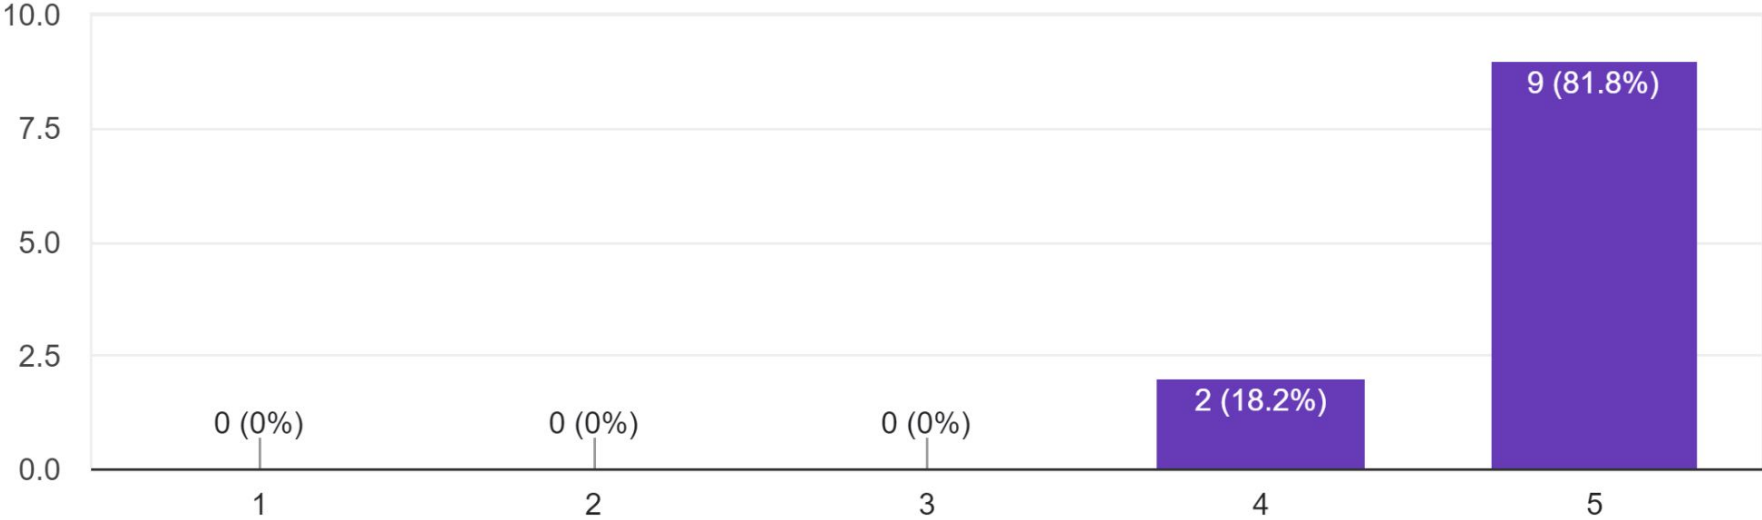

There wasn't any

There were no such activities.

I liked all of them

How satisfied are you with your involvement?

11 responses

Positive aspects about the mobility¹¹

responses

We all worked as a team

Well organized, lots of web tools

we worked as a team

We all worked together.

getting to know other country's culture and traditions.

Intercultural exchange amongst students

It was nice to establish a strong communication, to learn about new web2.0 tools.

Being Co operated

Learning about cultures

Flexibility in work.

Met new people

Recommendations/ suggestions/ other

comments¹¹ responses

None

Keep up the good work

none

I have no other comments.

we should've gone to Romania

It was a splendid project.I would like us to be involved in a similar project in the future.

I would like to thank the Romanian team for everything and for the well planned activities.

Thanks for everything

Everything was great

Does not have.

Everyone should be in projects

Summary

This survey was applied on the last day of our meetings and according to the feedback participants offered it can be seen that this mobility reached its goals.

The diversity of the activities and the working methodology encouraged participants to be active agents of their own learning process and helped them to increase their general knowledge about traditional music and musical instrument and about the Romanian cultural heritage.
